

Undergraduate and Postgraduate Courses

London | Birmingham | Manchester

University of
Roehampton
London

In partnership with

2022/2023

The courses in this brochure cover the University of Roehampton degrees taught by our partner QA Higher Education.

In addition to the courses outlined in this brochure, the University of Roehampton also offers a wide range of excellent degrees in the arts, humanities, social sciences, business, education, psychology, law, life and health sciences on our main site – a 54-acre parkland campus in the heart of south-west London. These degrees are taught by our nationally and internationally recognised research-active staff.

Welcome

Roehampton is a very special university. We have a proud history stretching back over 180 years and are the only campus based collegiate university in London. Our four Colleges provide a strong sense of community, and our size means you will get to know those that teach you and those you study with.

At Roehampton we pride ourselves on helping all students, regardless of their background, to develop the skills they need for a successful graduate career and fulfilling life.

The student experience is at the heart of everything we do. We work in partnership with students to make sure that every moment of Roehampton matters.

We believe that a university education is not just about getting a great degree, but also broadening your experiences, preparing yourself for the world of work, and making lifelong friendships.

A Roehampton degree is designed to ensure that you graduate with the qualities you need to succeed: confidence, adaptability and the capacity to work with people from all walks of life.

We hope to see you at Roehampton soon.

Jean-Noël Ezingard
Vice-Chancellor

Roehampton has been giving students the very best education for over 180 years. Our reputation for excellence keeps on growing. Join us and we'll give you a first-class educational experience, designed to help you reach your full potential and get the career you want.

Here are the top reasons why Roehampton is the place for you:

Inspiring teaching

Thanks to our ethos of working together, you will enjoy a high level of contact time with your teachers. You will be taught by QA Higher Education's highly-experienced academic staff, who have real-life business experience. You'll study an exciting curriculum designed by the University of Roehampton, which focuses on making you a 'business-ready' graduate.

Supportive campus community

When you join Roehampton, you will become part of our highly-regarded and forward-thinking academic community. You'll also be part of one of three vibrant learning centres, with all the support and social life that they provide.

Our Student Welfare team can also provide guidance and support on academic issues, coping with stress, or family or relationship problems. We offer a range of services for issues you may have, such as managing finances or arranging disability or dyslexia support.

Preparing you for the world of work

Our inspiring staff work at the cutting edge of their subjects and are passionate about what they teach. Our degree courses tackle real-world issues and are designed to give you the skills that employers value, including creativity and the ability to present your ideas with confidence.

To help you on your way to a successful career, our Careers and Employability service offers friendly and impartial advice to help you plan your career, as well as helping you to develop your employability skills.

93% of Roehampton graduates are in work or further study within six months of graduating.¹

Learning facilities

Our facilities are designed to enhance your learning, and include modern teaching facilities and fully-equipped IT suites.

Our PC suites can be found in break out areas throughout our centres, and there are wireless zones if you need to use Wi-Fi on your devices. Our onsite libraries² provide a wider range of resources and offer modern study areas and full-time librarians to help you find all the relevant books and academic resources you need to excel in your studies.

On our main campus, we have a state-of-the-art £35 million library, which is open to students studying at all of our sites.

London living

Our London Holborn Centre is housed within a beautiful red-brick building dating back to the 1800s. The Centre is an excellent environment to study in and achieve the goals you set out to reach. Our Holborn Centre could not be in a better location to allow you to discover London and everything that the UK's capital has to offer.

Located in the heart of the city

Situated in Zone 1, the central London location of our Holborn Centre will place you in a perfect position to experience everything that London has to offer. Hop on the tube at Chancery Lane or Farringdon, within walking distance, to get to Oxford Street, Soho, Covent Garden and Liverpool Street. Travel to many iconic London attractions - from world famous museums and libraries, to vibrant restaurants and bars in an instant.

Facilities

We have modern teaching facilities and computer suites, library facilities and Wi-Fi throughout. Our Student Support team at the Centre will be more than happy to help with any queries you have about the University and any other aspect of your studies. The small size of our Centre means that we are able to offer you a more tailored service, ensuring you get a personal learning experience.

Teaching

At Roehampton, we offer a first-class educational experience, designed to help you reach your full potential.

How to find us

London Holborn Centre

St James' House,
10 Rosebery Avenue,
Holborn, London, EC1R 4TF

Nearest tube stations

Chancery Lane
(Central Line)

Farringdon
(Circle, Hammersmith & City,
Metropolitan lines).

Buses

The number 19, 38 and 341
stop directly outside the
Centre.

The number 17, 45, 46, 55 and
243 stop less than a 3 minute
walk away.

For further information about getting to the Centre on the London public transport network, please visit the TfL website: www.tfl.gov.uk

Birmingham

living

How to find us

Birmingham Centre

5th Floor, Centre City,
5-7 Hill Street,
Birmingham, B5 4UA

T: +44 (0)203 773 6141

Nearest train stations

New Street station (BHM) is situated next to the Centre and Moor Street station is just a short walk away.

For further information about train travel, including ticket prices and timetables please visit the National Rail website:

www.nationalrail.co.uk

Buses

A variety of West Midlands Travel buses stop within walking distance of the Centre.

For more information about bus routes, please visit the National Express website:

www.nxbus.co.uk

Our central Birmingham Centre is located seconds away from the popular New Street rail station. Find plenty of shops, restaurants and bars just a short walk away and benefit from living in the UK's second largest city, with more than 80,000¹ students from across the globe. Our Centre is designed to provide you with an excellent experience, with a friendly atmosphere and modern teaching facilities.

An entrepreneurial city

There are increasing numbers of businesses moving to, and expanding in Birmingham, so it is a very exciting time to choose it as your place of study. Birmingham is a home to a growing entrepreneurial community, placing you in an ideal location for undertaking part-time work and internship prospects.

Facilities

Our Birmingham Centre has its own well-equipped on-site library, plus it is close to Europe's largest regional library where you will be eligible for membership. At the new Library of Birmingham, you will have access to free Wi-Fi and designated research areas, making it an ideal place for studying. We also have a Careers Service who will be able to help you perfect your CV, build your career skills and find part-time work.

Culture

There has recently been significant regeneration around the city, with thousands of pounds invested into cultural initiatives and cityscape renovations. Birmingham has many cultural attractions on offer, whether you're into art or ballet, there's something for everyone.

¹ Visit Birmingham 2020

Manchester living

Positioned just minutes away from Manchester's Oxford Road Station, our Manchester Centre is embedded within the city's thriving creative community. The location of the Manchester Centre provides you with an excellent opportunity to take advantage of one of the country's fastest growing business communities.

A city with a passion for innovation

Manchester is the third largest city in the UK, with over 85,000 students in the city. Our Centre is located in a city with a passion for business and innovation, home to leading firms including Barclays, Deloitte and the Guardian Media Group. The business district will stand you in good stead for obtaining an internship or work at the end of your course.

Classes will take place in one of our newly refurbished spaces, which offers a state-of-the-art learning environment with modern facilities, providing you with a comfortable and well-equipped place to study.

Culturally rich

Manchester is a hive of activity and there is something to suit everyone. From theatres, art galleries and museums, to restaurants and bars, Manchester can provide you with endless hours of entertainment.

Easy to navigate

The city is well served by bus, train and tram and the lack of hills means that cycling is also a practical alternative. Manchester International Airport is only a few miles south of the city and has flights to destinations all around the world.

How to find us

Manchester Centre

Saint James Buildings,
61–95 Oxford St,
Manchester, M1 6FQ

T: +44 (0)203 773 6141

Nearest train stations

Manchester Oxford Road (MCO) is situated next to the Centre, and Piccadilly and Deansgate are just a short walk away.

BSc (Hons) Computing Technologies

	BSc (Hons) Computing Technologies Extended Degree	BSc (Hons) Computing Technologies
 Level	Undergraduate / FHEQ Level 6	
 Duration	4 years	3 years
 Intakes	September and January	
 Tuition fee	£9,250 (per annum)	
 Location	Birmingham and Manchester	
 Mode of study	Full-time blended learning: Daytime or Evening and Weekend	
 Assessment methods	Coursework, exams and presentations	
 Entry requirements	64 UCAS points, or equivalent. GCSE Maths at grade D/3 or above, or equivalent. This can be exempted by successfully passing the QA Higher Education Maths test (score 6 out of 15).	96 UCAS points, or equivalent. GCSE Maths at grade C/4 or above, or equivalent. This can be exempted by successfully passing the QA Higher Education Maths test (score 8 out of 15).
 English language requirements	GCSE English at grade C/4 or equivalent. Applicants can sit the QA Higher Education English test, where 55% is required.	GCSE English at grade C/4 or equivalent. Applicants can sit the QA Higher Education English test, where 60% is required.

Why study Computing

- Two-thirds of UK businesses have unfulfilled digital skills vacancies (CBI 2019)
- 52% of companies plan to defer investments due to Covid-19, but just 9% will make those cuts in digital transformation (PwC 2020)
- IT leaders worldwide reported a median additional spend of 5% of IT budget to deal with the Covid-19 pandemic (KPMG 2020)
- The European Commission predicts 9 out of 10 jobs will require digital skills but 44% do not have basic skills (2017)

Overview

In a world becoming more digital and technological, organisations are increasingly creating, developing, maintaining and transforming software systems and applications. The BSc (Hons) Computing Technologies has been created to help meet this growing demand for technology-related employment. You will be equipped with:

- an understanding of core programming and digital technologies
- an understanding of systems designs principles and project management skills
- an ability to apply systems designs principles and project management skills

Additionally, you will benefit from a strong platform in network and cyber security, together with skills in cloud computing, web and mobile technologies, data analytics, user experience design and the Internet of Everything (IoE).

Why Roehampton

- Acquire a diverse set of technical skills and competences that are applicable to today's and tomorrow's job markets
- Learn in a personalised and friendly small class environment
- One to one careers advice to build your experience and skills in readiness for a competitive job market

Career opportunities

Graduates from this programme will be well placed to pursue careers in a number of computing related areas including software development, cyber security, web and mobile app design and data analytics. The degree also provides a platform for Masters-level study in a range of fields.

An entry point to suit you

Our four-year programme is designed for students who need extra support to develop academic, study and English language skills ready to progress on to Year One of the BSc Computing Technologies.

Evening and weekend study

One of our study options available for UK/Home nationals includes evenings and weekends. This study option offers exactly the same levels of student support and the ability to balance your full-time studies with your personal life.

Our blended learning approach

- Combines live online learning with face-to-face on-campus sessions
- Flexibility of learning means our students can balance studying in and around other commitments
- Build friendships and join a community both live online and on-campus

Example modules

Foundation Year

Fundamentals of Computer Architecture
Introduction to Computing Mathematics
Academic Skills Development & Ethics
Professional Computing Project
Fundamentals of Programming
Information Systems Development

Year One

Discrete Mathematics & Algorithms
Web Engineering & Security
Introduction to Devices & Networks
User Experience Design
Object-Oriented Programming
Data Mining

Year Two

Mobile Application Development Technologies
Data Science for Developers
Cloud Computing
Business Intelligence
Enterprise Project & Professional Issues
Advanced Network Design

Year Three

Dissertation 1 (Research Methods & Skills)
Cyber Security
Internet of Everything
Interactive Systems Design Principles
Innovative Technologies & Entrepreneurship
Dissertation 2 (Applied Project)
Preparing for Employment (Optional - 0 credits)

All single modules are worth 20 credits unless otherwise stated

Why study Digital Business Management

- IDC projects the value of direct investments in digital transformation between 2020-2023 at \$6.8 trillion (2020)
- The digital transformation market is expected to grow 22.7% to \$3,294 billion (Research and Markets 2020)
- 70% of organisations have a digital transformation strategy or are working on one (PTC 2019)

Overview

For many organisations, digital transformation has always been a primary priority, and Covid-19 has only expanded this need. The following are the primary issues that today's enterprises face:

- How to use digital technologies to transform their current business model?
- How should they interact with those technologies and attract new customers?
- How to digitally/virtually manage a dislocated workforce?

This programme is designed to equip you with the necessary skills to address these issues.

Why Roehampton

- Graduate 'business ready', with a clear understanding of how you can add value to organisations and society
- Be encouraged to think digitally and prepared to run businesses online
- One-to-one careers advice to build your experience and skills in readiness for a competitive job market

Career opportunities

You will be well placed to pursue jobs in accounting and finance, international business, retail, marketing, human resources, or progress to a relevant Masters-level course or professional qualification. Our graduates will be in a position of strength in either the pursuit of further study or on the graduate jobs market, having gained a qualification with high currency in these challenging and digitally focused times.

An entry point to suit you

Our four-year programme is designed for students who need extra support to develop academic, study and English language skills ready to progress on to Year One of the BSc Digital Business Management programme.

Evening and weekend study

One of our study options available for UK/Home nationals includes evenings and weekends. This study option offers exactly the same levels of student support and the ability to balance your full-time studies with your personal life.

Our blended learning approach

- Combines live online learning with face-to-face on-campus sessions
- Flexibility of learning means our students can balance studying in and around other commitments
- Build friendships and join a community both live online and on-campus

Example modules

Foundation Year

Communication for Academic Purposes 1
Business Essentials Introduction
Operational Mathematics
Communication for Academic Purposes 2

Disciplinary Investigation

Year One

Learning and Working in a Digital World
The Digital Business Environment
Finance and Accounting for Managers
Managing the Digital Organisation
Techniques for Data Driven Decision Making
Marketing in the Digital World

Year Two

Project Management in a Digital Environment
Creating and Managing Digital Operations and Supply
Managing Virtual
Big Data
Digital Expectations: Understanding the Inter-Generational Customer Context
Cyber Security and Information Governance

Year Three

Emerging Technologies: Business Opportunities and Challenges
Strategy Formulation in a Digital Context
Business Ethics in a Digital Context
Research Methods
Dissertation (40 credits)
Preparing for Employment (Optional - 0 credits)

All modules are core and worth 20 credits, unless otherwise stated.

MSc

Global Business Management

 Level	Postgraduate / FHEQ Level 7
 Duration	1 year
 Intakes	September, January, May
 Tuition fee	£8,250
 Location	London Holborn, Birmingham, Manchester
 Mode of study	Full-time blended learning: Daytime or Evening and Weekend
 Assessment methods	Coursework only
 Entry requirements	2:2 Honours Degree from a recognised university, or equivalent (Non-graduates with appropriate professional qualifications will be considered on an individual basis) IELTS 6.5 overall with no less than 5.5 in any band, or equivalent

This programme is ideal for learners who want to:

- acquire the necessary theory and analytical mindset essential to any future business leader
- gain a global understanding of today's business environment
- develop the necessary practical and personal skillset to become a key asset within an organisation

Why study Global Business Management

- Worldwide exports have grown from \$4.3 trillion in 1990 to \$24.8 trillion in 2019 (World Bank 2020)
- 305 active Regional Trade Agreements in place (WTO 2020)
- Global outsourcing market was worth \$92.5 billion in 2019 (Statista 2019)
- 83% of companies have suffered reputational damage because of supply chain problems (Interos 2021)
- Global B2C e-commerce sales are expected to reach \$4.5 trillion in 2021 (eMarketer 2021)

Overview

The global business environment is currently undergoing a series of fundamental and far-reaching economic, social, technological and geopolitical changes. These changes have led to the emergence of a new and very different market reality that demands of managers very different patterns of thinking and behaviour.

Our MSc Global Business Management has been designed to ensure that graduates will have a sound theoretical grounding in the broad area of business and management and will develop a range of analytical and personal skills. You will have a clear understanding of how your new knowledge and skills may be used effectively within an organisational context.

Why Roehampton

- Emphasis on solving the real-life problems faced by businesses today
- Study in popular central city locations
- Learn in a personalised and friendly small class environment
- One to one careers advice to build your experience and skills in readiness for a competitive job market

Career opportunities

Successful students will emerge from this programme as responsible business leaders with well-developed analytical skills, clear perspectives on strategy and global business management. They will have highly effective communication and research skills. All of these are required by employers in both the private and public sectors.

Evening and weekend study

One of our study options available for UK/Home nationals includes evenings and weekends. This study option offers the same levels of student support and the ability to balance your full-time studies with your personal life.

Our blended learning approach

- Combines live online learning with face-to-face on-campus sessions
- Flexibility of learning means our students can balance studying in and around other commitments
- Build friendships and join a community both live online and on-campus

Example modules

Business Research Methods
Financial Performance Management
Global Strategic Management
Leadership and Change Management
Managing International Trade
Strategic Marketing
Supply Chain Strategy and Processes

Consultancy Project or Dissertation (40 Credits)

All single modules are worth 20 credits unless otherwise stated

MSc

Management and Digital Transformation

	Level	Postgraduate / FHEQ Level 7
	Duration	1 year
	Intakes	September, January and May
	Tuition fee	£8,250
	Location	London Holborn, Birmingham, Manchester
	Mode of study	Full-time blended learning: Daytime or Evening and Weekend
	Assessment methods	Coursework and presentations
	Entry requirements	2:2 Honours Degree from a recognised university, or equivalent. Non-graduates with appropriate professional qualifications will be considered on an individual basis.
	English language requirements	IELTS 6.5 overall with no less than 5.5 in any band, or equivalent.

This programme is ideal for learners:

- aiming to learn the necessary theoretical and practical skillset to manage deep digital organisational changes
- having the ambition of acquiring leadership role in the Digital Age
- having an entrepreneurial and intrapreneurial mindset

Why study Management and Digital Transformation

- The digital transformation market is expected to grow 22.7% to \$3,294 billion (Research and Markets 2020)
- 70% of organisations have a digital transformation strategy or are working on one (PTC 2019)
- IDC projects the value of direct investments in digital transformation between 2020-2023 at \$6.8 trillion (2020)

Overview

The MSc in Management and Digital Transformation is an exciting programme that synthesises contemporary theories in the field of digital transformation with practical and authentic challenges.

Developments in digital technology are driving rapid changes in business, not least in the way organisations interact with their markets and customers. This in turn places a premium on the ability of organisations and individuals to act in an entrepreneurial and intrapreneurial way to counter the challenges this brings as well as to capitalise on emerging opportunities.

Successful business leaders increasingly need to be able to operate in a digital context, create appropriate strategies, formulate, and implement successful digital transformation projects. In turn, managers and leaders need to develop the managerial and practical skills necessary to manage the deep organisational change that such transformation projects can bring.

Why Roehampton

- Gaining the key competences to plan effectively for successful digital transformation
- Apply and critically evaluate theoretical and practical change management tools, models and concepts in the context of digital transformation projects at a range of scales
- Evaluate and exploit opportunities created by disruptive digital technology

Career opportunities

The focus on management and digital transformation will ensure that you will be well placed to work in dynamic entrepreneurial organisations which make heavy use of digital technologies, or businesses that are moving into the digital economy from more 'traditional' sectors. Potential job titles may include:

- Project Manager
- Digital Transformation Consultant
- Digital Programme Manager

Evening and weekend study

One of our study options available for UK/Home nationals includes evenings and weekends. This study option offers exactly the same levels of student support and the ability to balance your full-time studies with your personal life. .

Our blended learning approach

- Combines live online learning with face-to-face on-campus sessions
- Flexibility of learning means our students can balance studying in and around other commitments
- Build friendships and join a community both live online and on-campus

Example modules

The Anatomy of Digital Business
 Entrepreneurship in a Digital World
 Developing Transformative Digital Strategies
 Transformation Management
 Leadership in the Digital Age
 Researching Digital Developments
 Dissertation (60 credits)
 Preparing for Employment (optional - 0 credits)

All modules are core and worth 20 credits, unless otherwise stated.

Here for you

Throughout your studies, you will have access to a range of student services that will assist you in all aspects of your education and career.

ACE team

The Academic Community of Excellence (ACE) team are always on hand to help you excel within your academic career. You can make the most of this service by taking part in the following free services:

- Tutorials: one-to-one tutorials are available to help you develop the academic skills you need – from referencing, academic writing, critical thinking and more
- Workshops: learn critical academic skills such as how to avoid plagiarism, planning assignments, using sources, and building presentations

Careers and Employability Service

To help you on your way to a successful career, our Careers and Employability service offers friendly and impartial advice to help you plan your career, as well as helping you to develop your employability skills.

- Advice regarding your career options during and after your studies
- Job hunting advice and tips
- CV and application feedback
- Interview practice

Welfare team

If you need advice during your time at university about something that may be affecting you, your studies or your health, our Welfare team are available to help.

How to apply

Applications to full-time undergraduate and postgraduate courses can be submitted directly to QA Higher Education who manage all applications for courses offered at the London Holborn, Birmingham and Manchester Centres.

Our admissions process is designed to be as simple, clear and logical as possible. If you wish to submit an application, this timeline will help you through the application process:

Course requirements

The University recognises a wide range of qualifications for admission to its programmes of study. Although admissions requirements may be expressed as UCAS tariff points, offers can also be made at the equivalent level for applicants holding a BTEC or a combination of qualifications.

Before applying, check that you meet the University's General Entrance Requirements and the specific requirements for your chosen course(s). These can be found at:
qa.roehampton.ac.uk/entry-requirements

An entry point to suit you

Our four-year programmes are designed for students who require a foundation year to develop academic, study and English language skills ready to progress on to Year One of an undergraduate degree.

Non-standard entry

For each level, we offer non-standard entry routes for students. Applicants may be able to satisfy the requirement by substituting a combination of alternative qualifications to the same standard as defined by UCAS.

Applicants are encouraged to provide all qualifications that attract UCAS tariff points in their application. These qualifications may be considered by the University should conditional offer grades be narrowly missed.

When to apply

Places are limited so we encourage you to apply early to ensure you are considered for your chosen course. For key dates and deadlines for each of our programmes, please contact our Admissions team.

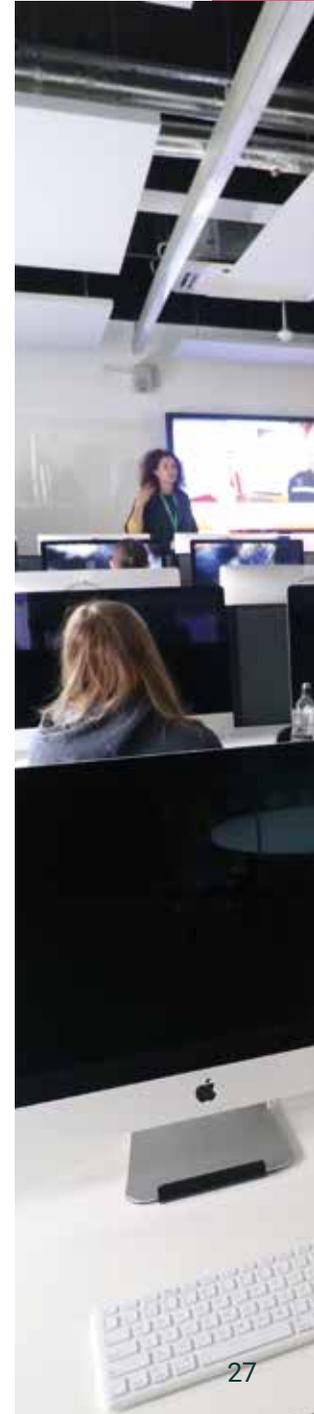

What happens next?

The Admissions team will consider your application and send you details of the outcome. Successful applications will receive an offer to study along with details for registration and enrolment.

Questions about your application

The Admissions team will help you with enquiries about admissions and the progress of your application.

T: **+44 (0)203 773 6141**
E: home.admissions@qa.com

Fees and funding

Finances are an important consideration for students. A variety of funding is available for students based on your individual circumstances. UK/Home students can benefit from tuition fee and maintenance loans which can be used to supplement living expenses.

Postgraduate Loan

The government offers a loan scheme for postgraduate students of over £10,000. The loans are available for taught master's programmes (and MRes) in all disciplines and subject areas. Students who normally live in England and are under 60 years old will be eligible, provided they have not already taken a master's course. For full eligibility criteria and application forms visit: gov.uk/funding-for-postgraduate-study

Tuition Fee Loan

You can receive a Tuition Fee Loan from Student Finance England (SFE) if you live in England and you have secured a place in higher education for studying your first degree or other higher education course.

It is important to note that your course fees do not cover the cost of the following: subject books, stationery, printing and photocopying costs, accommodation, living expenses, travel, hobbies, sports or any other extracurricular activities.

You should be prepared to buy some of the course texts which are around £30 each. This would average around £180 per annum.

Maintenance Loan

Full-time UK/Home undergraduate students can also apply for a Maintenance Loan to help towards living costs, such as accommodation, food, books, travel and other expenses. The amount you can borrow depends on where you live, where you study and your household income. Maintenance Loans are paid straight into your bank account and will be transferred in three payment instalments at the start of each term.

There's also extra help for students with a disability, including a long-term health condition, mental-health condition or specific learning difficulty, or students who have children or adult dependants.

For more information, eligibility and full terms and conditions please visit: www.gov.uk/student-finance

Applying for funding

You should apply as early as possible to make sure you get your funding at the start of your first term. If your application is late, your funding may be too.

The quickest and easiest way to apply is online at: www.gov.uk/student-finance. There is help text throughout the application process that will explain how to fill in the form. Your application for each of the loans (Tuition Fee and Maintenance) is only valid for one academic year. This means you must apply for funding in every year of your course. You should only make one application each year. In every other year, you will find most of your details already on the online form, except for income details, which will need to be provided for each academic year.

When do I repay the Tuition Fee Loan?

You don't have to repay your loan until you've finished or left your course and your income is over the current threshold of £480 a week, £2,803 a month or £25,000 a year. This will include your salary and any other sources of income. The amount that you will repay each month will be based on your income, not the amount that you have borrowed and your employer will automatically take 9% of your income above the threshold. If you are self-employed you'll repay the loan through self-assessment.

For more information about repayments, visit:

www.studentloanrepayment.co.uk

The above information is correct at the time of print (January 2022), but is subject to change. For the most up to date information, please visit www.gov.uk/studentfinance.
