English for University Studies

Our English for University Studies programme (known as EUS) is designed specifically for international students, and offers you an opportunity to explore what it is like to study at university in the UK. It is also designed to develop, not only your everyday English language confidence, but also the skills required to join an academic course at university. This programme is perfect for those who have had little opportunity to learn a subject in English or are looking for a more gradual introduction into studying at university in the UK, without committing to long term study.

 Level	English Language	
 Start dates	October, January	October
 Duration	3 months	6 months
 Tuition fee	£4,000	£8,000
 English language requirements	IELTS 4.5 with no element less than 4.0	
 Mode of study	Full-time - seminars, practical activities, directed learning and independent learning	
 Class hours per week	20 hours	
 Average class size	16	
 Assessment methods	In-class tests	
 Entry requirements	5 GCSE/IGCSE passes at grade A-C, or equivalent. You must be 16 or older to study this programme	
 Financial support	Please check pathway.northumbria.ac.uk/scholarships-and-bursaries for more details and full terms and conditions	

Supporting your development

By studying EUS, you will have the opportunity to develop your awareness of academic culture in the UK as you integrate into student life within a UK university. You will practice your newly acquired English skills alongside other like-minded international students in a friendly and supportive environment.

In addition to our teaching staff, you will be assigned a guidance tutor who will be your first point of contact for anything outside of the classroom, making sure you have all the support you could possibly need. The programme will enable you to develop your language skills for academic purposes, providing you with a solid foundation to study at a British university such as Northumbria University.

What will I study?

You will learn about techniques to record and develop your vocabulary as well as your knowledge of key aspects of grammar. This will be learnt through a number of ways including communicative and task-based learning. This will include the development of your reading and writing strategies alongside encouragement to effectively participate in seminars and presentations and in doing so, enhance your listening and speaking skills.

Through this approach you will become more confident in all forms of English language communication.

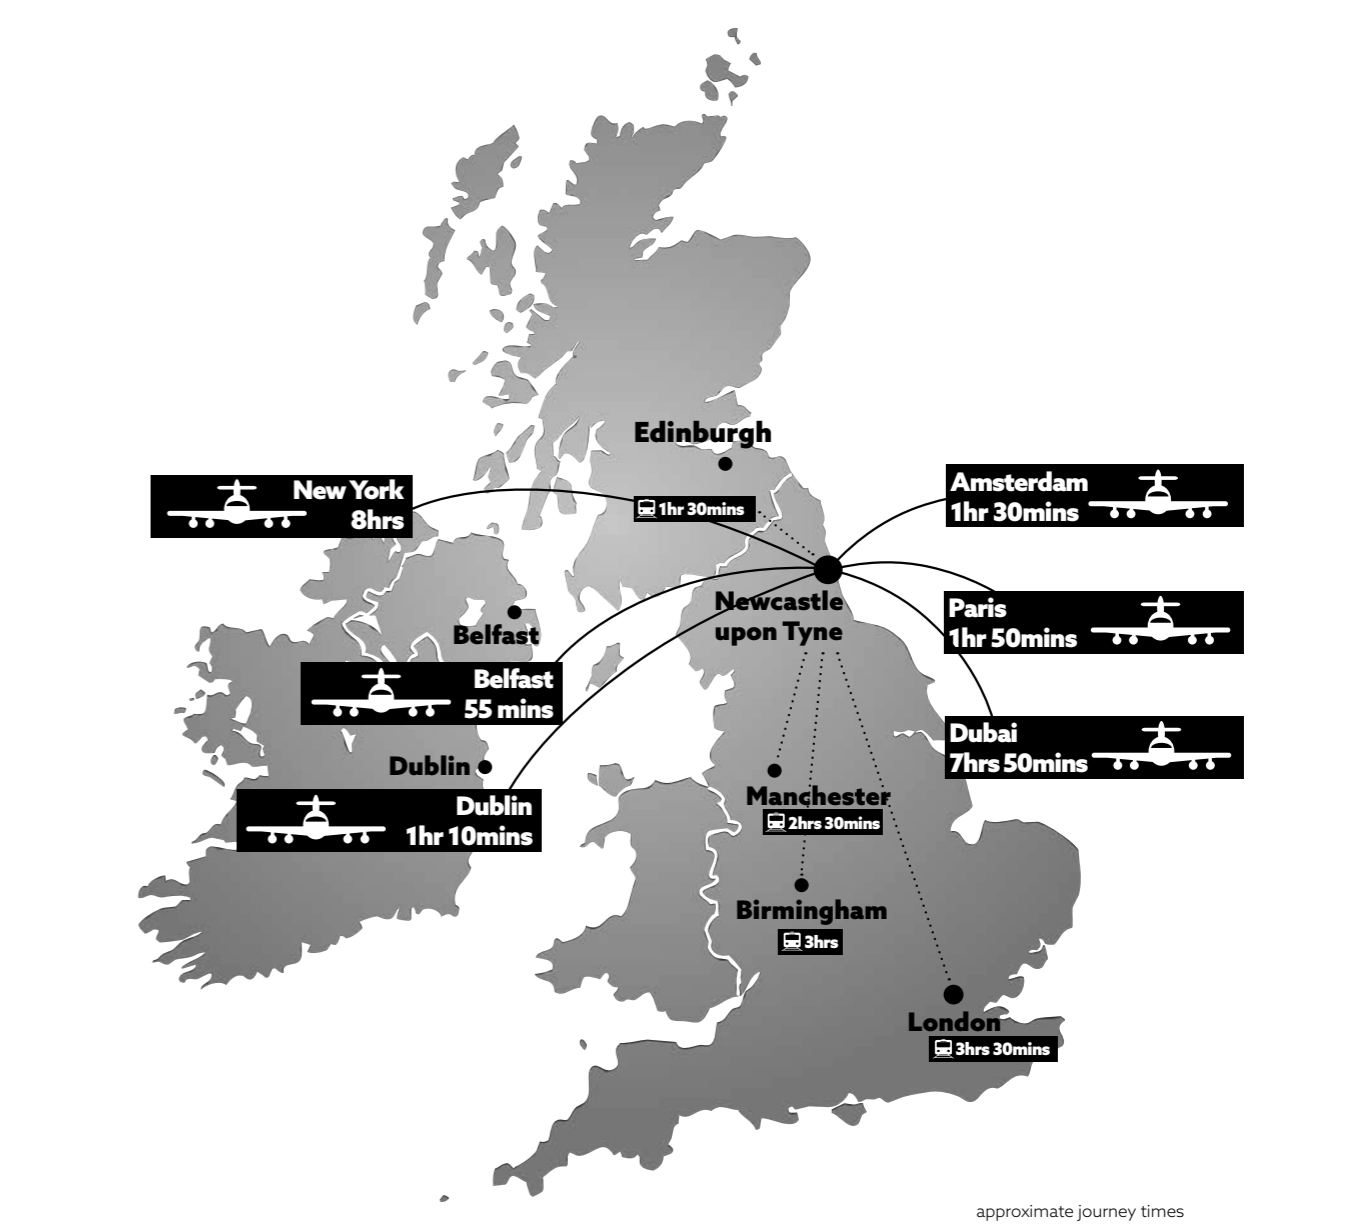

Key benefits

- Experience what it's like to be a student at Northumbria University
- Learn alongside other international students who are progressing onto further study at Northumbria University
- Develop key English and academic skills whilst living in one of the most student friendly cities in the UK
- Study as a standalone course
- A chance for you to find out what it means to study at a UK academic institution
- Opportunity to explore the courses of study available at Northumbria and choose the right one for you

Where next?

Whilst this is a standalone course, we encourage you to take the opportunity to explore the courses of study available at Northumbria and choose the right one for you.
