## Locations

Study at central locations in three of the biggest cities in the UK

### London

Our London Holborn Centre is a contemporary space with modern teaching facilities and computer suites. Its central location will allow you to discover London and everything that the UK's capital has to offer.

### Birmingham

Our Birmingham Centre is located seconds away from the popular New Street rail station. It is designed to provide you with a friendly atmosphere and modern teaching facilities.

### Manchester

Positioned just minutes away from Oxford Road Station, our Manchester Centre provides you with an excellent opportunity for career development in one of the country's fastest growing business communities.

## BSc (Hons) Computing Technologies

Computer science and technology is one of the booming sectors of this century. The BSc (Hons) Computing Technologies course has been created to help meet this growing demand for technology expertise.
