**The BSc (Hons) Business Accounting programme will teach you the relevant skills required to pursue a career in the field of accountancy. You will gain an understanding of business functions in preparation for a career using key financial and business skills.**

If you choose to study our four-year course, your studies will begin with a foundation year designed to boost your knowledge and help you meet the challenges of your degree. This leads onto the main three-year programme which includes modules intended to bring all students to a standard level of proficiency to pursue further study in accountancy.

As you progress through this course, you will be required to devote more time to ethics, governance and accounting principles. You will learn the relevant rules of the field and apply the skills needed to succeed in a practical context. These skills will be developed through a choice of modules including: Financial Accounting and Management Accounting, Financial Project Management, and Personal Finance Behaviour.

## How will I be taught?

You will be taught through a variety of methods such as lectures, seminars, guest speakers, online videos and group work. During your studies, you will learn important teamwork and time management skills, while also understanding how to effectively manage your workload.

## Career progression

There are many career and further study options open to graduates of this programme in a range of areas including; project management, business analytics, taxation, and corporate finance.

This programme currently benefits from professional accreditations from various accounting bodies which may improve your opportunities for future study or work.

## Example modules

All modules are core and worth 30 credits unless otherwise stated. For a full list of modules please visit [qahighereducation.com/courses/bsc-hons-business-accounting](http://qahighereducation.com/courses/bsc-hons-business-accounting)
