- Develop confidence in an English-speaking academic environment.
- Familiarise yourself with British culture before starting university.
- Study a 5, 10, or 15 week programme to develop your English language skills, before progressing onto your chosen course.

What will I study?

Through online social and academic activities and tasks, you will gain the necessary skills to successfully complete a UK university programme.

- **15 week programme:** focus on developing your reading, writing, speaking and listening skills, as well as vocabulary, grammar and pronunciation in both academic and social settings.
- **10 and 5 week programme:** develop the necessary language and academic skills required to achieve the most from your future degree through critical thinking, discussion and analysis.

On completion of the course you will be able to undertake all aspects required of university study, as well as confidently socialise in informal settings.
