

# What is a Masters with Advanced Practice?

A Masters with Advanced Practice is an extended 21-month long Masters degree, offering real-world experience as part of the course by including either an Internship or Applied Consulting Project.

- Enhance your employability
- Improve your CV
- Put theory into practice
- Network with key contacts
- Reflect on your experiences
- Gain real-world experience

# What will the Advanced Practice programme look like?

## FIRST 2 SEMESTERS

The first two semesters are the same as the standard Masters.

## PENULTIMATE SEMESTER

You will choose between two options:

1. An Internship & Professional Development Project, a 15-week internship at an external company
2. An Applied Consulting Project, which involves working on a live business project in the industry

## FINAL SEMESTER

You will then complete your final semester, including either a Dissertation or Applied Research Project.
